# 2016 National Research Infrastructure Roadmap Environment and Natural Resource Management

Question 20: Is there anything else that needs to be included or considered in the 2016 Roadmap for the Environment and Natural Resource Management capability area?

---

Thank you for the providing the opportunity to attend a consultation session, which I did on the 19<sup>th</sup> August.

Would you please add promoting, supporting and expanding the scope of Citizen Science to the 2016 Roadmap.

With regards,

Lynda Newnam
