Subject: Comments on the second Call for Comment from the Higher Education Standards Panel due 10 July 2013 [SEC=UNCLASSIFIED]

Higher Education Standards Executive

As a result of seeking views from the Higher Ed Services (HES) constituency in regards to the second call for comment due today, please see the following .

There were some questions as to the possibility of duplication with the terms of the Australian Code for responsible conduct of research.

There is some differing of opinion regarding the Research Standards; some acceptance, others fear" intrusion", while others question how the Standards fit with existing relevant State & Federal legislation.

There seems to be general acceptance for the Research Training Standards, however, there is some concern over duplication; eg numbers 1 & 7 may need

clarification. It was suggested that number 4 of the Learning Outcome Standards, could be covered in 1e of the Research Training Standards.

It is hoped that the Standards will be minimal, in order to maintain the task of regulation, manageable for institutions, in a climate of funding reductions.

Please feel free to contact me if any of the above needs clarification.
